

## Lead Code for Mining Technology

Pathway: Energy Production Technology

Program: Mining Technology

Code: 460701

### Teacher Certification

This certification is contingent upon an endorsement from the Office of Mine Safety and Licensing in the Department of Natural Resources ([omsl.ky.gov](http://omsl.ky.gov)) that the teacher/instructor is a certified Kentucky Mining Instructor.

### Industry Certificates:

To qualify for the Initial Mining Certificate, as a temporary miner, the student must:

- \*Complete required sequence of courses including underground and surface mining
- \*Meet age requirement of being 18 before beginning instruction in surface and underground mining
- \*Pass certification and drug tests

Qualifications for a Fully Certified Mining Certificate include:

- \*Applicant must have been employed a minimum of 45 days

under the supervision of a Mine Worker; and

\*Meets all requirements of the Office of Mine Safety and Licensing.
